Subject: RE: One Health WG call (3/29) - meeting materials

Hello all,

Following up on our discussion, attached are the core competencies that we came up with for our Global Disease Biology major at UC Davis (<http://gdb.ucdavis.edu/index.cfm>). As I mentioned on the call, these are aimed at undergraduates rather than professional students. The competencies were put together by a committee including faculty from the Med School, Vet School, and Plant Pathology. All of the core classes in the major (One Health, disease ecology, epidemiology, disease policy, microbiome) include human, animal, plant, and environmental topics and how these broad areas intersect. I'm happy to provide more information if folks are interested.

Dave

Importance: High

Dear One Health Work Group,

In preparation for the upcoming work group call on next Wednesday, March 29 at 1pm (ET), please review the following three documents (all attached).

1. **Meeting agenda:** Please take a look at the topics we will cover during the call.
2. **Preliminary background references document:** This document presents background information on the topics discussed during the first call.
3. **Work group info packet:** This document includes the concept note, work group roster and bios, and a list of relevant external stakeholders who the work group can reach out to on an ad hoc basis depending on the project.

To call in to the meeting, please follow the instructions below:

U.S/Canada toll free number: [REDACTED]

Participant passcode: [REDACTED]

[*Eduardo, please call the toll free number from Peru [REDACTED] and use the same passcode as above]

Please let me know if you have any questions. We look forward to speaking with you on the 29th!

Best,
Ayano
